Upland 107

The Upland 107 is made of high quality cast iron. This stove is a combination airtight boxstove and fireplace. It has built-in baffle features that make it easy to convert from one mode to the other. The 107 has an offset flue collar for a wide variety of applications. The top of the stove offers a large cooking surface. Once the draft is set on this stove it can easily hold a fire for 10-14 hours.
